HERITAGE AT RISK

2013

NORTH EAST

HERITAGE AT RISK

Heritage at Risk is our campaign to save listed buildings and important historic sites, places and landmarks from neglect or decay. At its heart is the Heritage at Risk Register, an online database containing details of each site known to be at risk. It is analysed and updated annually and this leaflet summarises the results. Heritage at Risk teams are now in each of our nine local offices, delivering national expertise locally.

The good news is that we are on target to save 25% (1,137) of the sites that were on the Register in 2010 by 2015. From Clifford's Fort, North Tyneside to the Church of St Andrew, Haughton le Skerne, this success is down to good partnerships with owners, developers, the Heritage Lottery Fund (HLF), Natural England, councils and local groups. It will be increasingly important to build on these partnerships to achieve the overall aim of reducing the number of sites on the Register. **Carol Pyrah**, Planning and Conservation Director, North East

Despite the continued recession, the number of sites on the Register continues to fall. The economic climate may be uncertain, but successful partnerships across the North East are removing many important heritage assets from the Register. This year we have successfully removed 12 entries and offered £566,000 in grant towards 9 heritage at risk projects.

Not all our grant funding goes on repair. An increasing amount is being used to carry out detailed surveys and options appraisals to help owners understand issues and options. This reduces risks when investing in schemes to reuse buildings or regenerate conservation areas. Although we have a number of success stories this year we still have a high percentage of grade I and II* buildings at risk in the North East (7.1%) and the number of scheduled monuments at risk is increasing. The greatest threat to monuments is poorly managed plant, tree and scrub growth: in the North East 46% of archaeological sites on the Register are suffering from unrestricted plant growth (often bracken). We are working with Natural England and the Northumberland National Park to develop new ways of managing bracken across our upland landscapes. Everyone is managing a much tighter budget these days: every little bit of funding is vital. Partnerships that have removed heritage assets from the Register this year include the repair of Clifford's Fort, North Shields, part of the very successful regeneration of the Fish Quay; a project driven by a dynamic partnership of local businesses, residents and North Tyneside Council. Work continues at Ushaw College, a former Catholic seminary near Durham, where a partnership to reuse buildings has been developed between the Ushaw College Trustees and Durham University, and English Heritage has contributed £345,000 to the repair of the Bounds Wall. We are also delighted

that the HLF has continued to invest in the future of places of worship by supporting vital church repairs. HLF funding has also secured a future for the Bowes Railway Trust by helping them develop training, education and heritage skills. These projects are being successfully delivered by volunteers who deserve our support and encouragement.

Many of the sites that remain on the Register are ones where a solution will take many years to develop. With limited funding, we must explore new, effective and innovative ways of getting maximum value from our limited resources, focussing on assets where we are most likely to deliver successful projects. As the conservation deficit increases for individual properties, the challenge will be to bring together the people, organisations and developers with the energy and vision to deliver sustainable solutions. Dunston Staiths, Gateshead is a good example of just such a project. The seemingly impossible task of managing and repairing a huge structure from our industrial past is now underway thanks to a partnership between Tyne & Wear Building Preservation Trust, Gateshead Council, Durham Wildlife Trust, HLF and English Heritage.

Kate Wilson,
Principal Adviser, Heritage at Risk

USHAW HOME FARM, COUNTY DURHAM

The Home Farm at Ushaw formed the centre of the farming operation for Ushaw College, founded in 1808 as a Catholic seminary by refugees from English Catholic seminary and school at Douai in France. The farming operation at its height encompassed over 600 acres of mixed arable and grazing land. Listed at grade II*, the main farm building of three storeys incorporates cattle byres, haylofts, milking parlour, dairy, and machinery for milling and grinding. The Home Farm was designed by the architect Joseph Hansom in a Gothic style and constructed in 1852 at the height of interest in farm building design in England, and is a new entry on English Heritage's Heritage at Risk Register for 2013.

BUILDINGS AND STRUCTURES

- Nationally, 4.1% of grade I and II* listed buildings (excluding places of worship) are on the Register. In the North East the percentage is 7.1% (69 buildings).
- 6 building or structure entries have been removed from the 2012 North East Register because their futures have been secured, but 2 have been added.

PLACES OF WORSHIP

- Of the 487 listed places of worship assessed in the North East, 21 are on the Register.
- 2 places of worship have been removed from the 2012 Register following repair work.

ARCHAEOLOGY

- 3,265 (16.5%) of England's 19,792 scheduled monuments are on the Register, of which 194 are in the North East.
- 3 archaeology entries have been removed from the 2012 Register for positive reasons and 7 have been added.
- 21.8% of archaeology entries (37) on the North East baseline 2009 Register have been removed for positive reasons, compared to the national figure of 21.1%.
- Nationally, damage from arable cultivation is the greatest risk factor, accounting for 43% of those on the Register. In the North East the proportion is 11%. The greatest threat for 46% of entries on the North East Register is from unrestricted plant, scrub and tree growth.

PARKS AND GARDENS

- 100 (6.2%) of England's 1,624 registered parks and gardens are on the Register. In the North East, 3 are on the Register, the same as last year.

BATTLEFIELDS

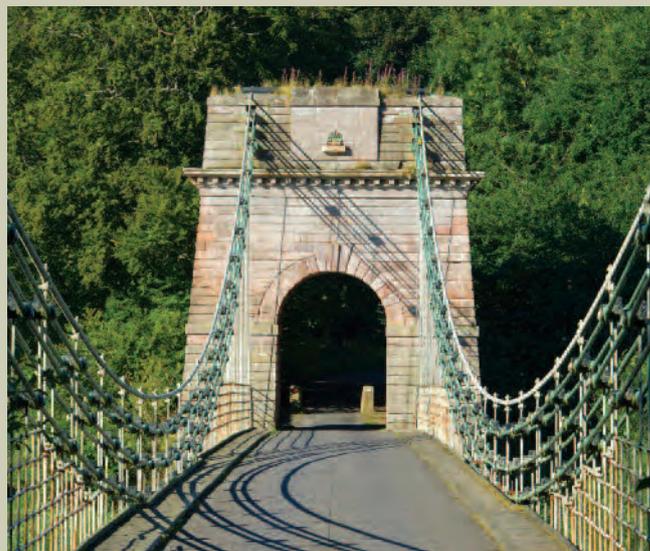

- Of the 43 registered battlefields in England, 6 are on the Register. Of the 6 registered battlefields in the North East, 1 is on the Register.

WRECK SITES

- Of the 46 protected wreck sites around England's coast, 4 are on the Register. The North East's single protected wreck site is not on the Register.

CONSERVATION AREAS

- 8,179 of England's 9,839 conservation areas have been surveyed by local authorities. 510 (6.2%) are on the Register. Of the 270 conservation areas surveyed in the North East, 25 (9.3%) are on the Register.
- 1 conservation area has been removed from the 2012 North East Register for a positive reason, but 6 have been added.

UNION SUSPENSION BRIDGE, NORTHUMBERLAND

The Union Suspension Bridge was the longest wrought iron suspension bridge in the world when it opened in 1820 with a span of 137m (449 ft). Listed grade I, the bridge spans the River Tweed and the border between Northumberland (England), and Scotland. It was designed and built by Captain Samuel Brown, a naval officer in the Napoleonic Wars and later a chain manufacturer, who patented his invention of the wrought iron bar-linked chain used in the construction of this bridge. This is a new entry on English Heritage's Heritage at Risk Register.

BATTLE OF NEWBURN FORD 1640

BACKGROUND AND HISTORY:

The Battle of Newburn Ford was the only battle of the Second Bishops' War prompted by King Charles I's attempt to impose a new prayer book on the Scots. A Scottish army of 20,000 men led by Alexander Leslie threatened Newcastle upon Tyne, but to avoid assaulting the strong city defences they decided to cross the River Tyne four miles upstream from Newcastle at the first fording point at Newburn.

To counter this, the English Commander, Lord Conway, took 3,500 infantry and cavalry from Newcastle to face him on the south bank of the River Tyne, arriving on the evening of the 27th August 1640. Although further

reinforcements were sent the following day, the English were driven from their fortifications by the weight of the Scots' artillery bombardment and the Scottish cavalry forced the English to retreat to higher ground and finally drove them off.

The Registered Battlefield at Newburn covers a large area on both the north and south banks of the River Tyne and is owned by a variety of individuals and organisations including households, smallholdings, farmers, national utility companies and local authorities.

The boundaries of the Registered Battlefield include the Scottish camp and artillery positions on the north bank of the River Tyne and the English defensive earthworks. Part of the settlements of Ryton and Stella on the south bank, through which the English retreated, are also included in the Registered Battlefield.

IS IT AT RISK?

Yes. Although the area has been heavily industrialised and the landscape is profoundly different to the landscape of 1640, it is still possible to understand the topography and the course of the battle, which took place over pastureland and woods, much of

which still remains today.

Unfortunately a lack of understanding about the battlefield and encroachment by piecemeal, large-scale development, unsympathetic work that does not require planning permission, and neglect threaten the integrity of the battlefield.

WHAT'S THE CURRENT SITUATION?

This is a challenging site that requires a coordinated approach by both local authorities (Newcastle City Council and Gateshead Metropolitan Borough Council) and English Heritage to raise the profile of the battlefield with local residents and businesses. A recent report prepared by the Battlefields Trust for English Heritage has highlighted the issues and made a number of recommendations.

The most pressing task is to contact all the owners and occupiers of the battlefield and make them aware of the importance of the battle and registered area and the need for them to help protect its integrity by modifying their activities so that key views are not compromised and fragile archaeological deposits are protected.

Find out what's at risk by searching or downloading the online Heritage at Risk Register at www.english-heritage.org.uk/har

THE REGISTER

Content and criteria

DESIGNATION

Definition

All the historic environment matters but there are some elements which warrant extra protection through the planning system. These are included in the National Heritage List for England (<http://list.english-heritage.org.uk>). Since 1882, when the first Act protecting ancient monuments and archaeological remains was passed, government has been developing the designation system. Listing emerged from the post-blitz 1940s Planning Acts, and is now applied to about half a million buildings ranging from palaces to street lamps. Almost 20,000 archaeological sites are scheduled, which introduces management controls. Some 1,624 designed landscapes are registered, as are 43 battlefields, and 46 wreck sites are protected.

English Heritage, as the government's expert adviser, is responsible for making recommendations – but it is still the Secretary of State at the Department for Culture Media and Sport who makes the decisions on whether an asset is designated. Understanding and appreciation develop constantly, which makes keeping the designation base up-to-date a never-ending challenge.

While responding to threat-driven cases, we increasingly seek to work strategically through the National Heritage Protection Plan. Recent developments have seen a greater striving for openness and transparency in the process of designating a site, and better communication of what makes something special. A change in legislation, part of the Enterprise and Regulatory Reform Act, makes this possible.

Alongside the nationally designated assets found on the National Heritage List for England are locally designated assets. Best known are conservation areas, but local authorities can also create lists of locally valued assets. Most archaeological sites of significance are not scheduled, but rely on local identification and management for their protection.

LISTED BUILDINGS

A listed building is a building (or structure) that has been designated as being of 'special architectural or historic interest'. The older and rarer a building is, the more likely it is to be listed. Buildings less than 30 years old are listed only if they are of outstanding quality and under threat. There are over 376,000 listing entries on the National Heritage List for England.

Listed buildings are graded I, II* and II. Grade I and II* are particularly important buildings of outstanding interest; together they amount to 8% of all listed buildings. The remaining 92% are of special interest and are listed grade II.

Entries on the statutory list of buildings of special architectural or historic interest may comprise a number of separate buildings. Formal residential terraces are the most obvious example. Entries on this Register reflect how buildings are grouped and recorded on the statutory list.

Structures can occasionally be dual designated (both listed as buildings and scheduled as monuments). In such cases, scheduling controls take precedence.

SCHEDULED MONUMENTS

Scheduled monuments include single archaeological sites and complex archaeological landscapes. 19,792 examples have been designated because of their national importance. (Scheduled monuments are not graded). They cover human activity from the prehistoric era, such as burial mounds, to 20th century military and industrial remains. For the millennia before written history, archaeology is the only testament to innumerable generations of people of whom there is no other record.

The later 20th century saw unprecedented changes to the landscape. As a result, types of historic site that once were commonplace began to become rare. Those that survive often represent just small islands of what once characterised broad sweeps of our towns and countryside. Although protected by law, scheduled monuments are still at risk from a wide range of processes and intense pressures outside of the planning system. These include damage from cultivation, forestry and – often most seriously of all – wholly natural processes such as scrub growth, animal burrowing and erosion.

REGISTERED PARKS AND GARDENS

There are 1,624 designed landscapes on the current English Heritage *Register of Historic Parks and Gardens of Special Historic Interest*. These registered landscapes are graded I, II* or II, and include private gardens, public parks and other green spaces, country estates and cemeteries. They are valued for their design, diversity and historical importance and in contrast to the number of listed buildings and scheduled monuments, registered parks and gardens is a very small group of assets.

Inclusion on the English Heritage *Register of Historic Parks and Gardens* brings no additional statutory controls, but there is a presumption in favour of conservation of the

designated site. Local authorities are required to consult English Heritage on applications affecting sites registered as grade I or II* and the Garden History Society on sites of all grades. The setting of designated heritage assets can also protect registered landscapes.

REGISTERED BATTLEFIELDS

English Heritage's *Register of Historic Battlefields* was set up in 1995, and is our youngest category of designation. Its aim is to protect and promote those sites where history was made through conflict. They range from the Battle of Maldon (991) to Sedgemoor (1185): almost half date from the period of the the civil wars in the mid-17th century. These are cherished for their memory, and for the respect owing to those who were killed, and whose remains still lie in the field.

Protection is needed to prevent encroachment through inappropriate development, or insensitive (and damaging) metal detecting, which can permanently alter the archaeological records. As with registered parks and gardens, there is a clear presumption in favour of protecting registered battlefields in Government planning policy. Battlefields are not graded.

PROTECTED WRECK SITES

England's 46 protected wreck sites represent a tiny proportion of the 33,000 odd pre-1945 wrecks and recorded casualties that are known to lie in the territorial sea. Wreck sites can be of importance for different reasons: the distinctive design or construction of a ship, the story it can tell about its past, its association with notable people or events and its cargo. The Protection of Wrecks Act 1973 empowers the appropriate Secretary of State to designate a restricted area around a vessel to protect it or its contents from unauthorised interference, and English Heritage administers the attendant licensing scheme for divers seeking access.

CONSERVATION AREAS

Conservation areas are designated by local authorities and are areas of special architectural or historic interest the character or appearance of which it is desirable to preserve or enhance. For more than 40 years conservation areas have proved a highly effective mechanism for managing change on an area-wide basis. There are currently over 9,800 conservation areas in England including town and city centres, suburbs, industrial areas, rural landscapes, cemeteries and residential areas. They form the historic backcloth to national and local life and are a crucial component of local identity and community cohesion.

Criteria for inclusion on the Register

RISK ASSESSMENTS

A risk assessment of a heritage asset is based on the nature of the site. Building or structure assessments, for instance, include listed buildings (but not listed places of worship) and structural scheduled monuments; archaeology assessments cover earthworks and buried archaeology.

BUILDINGS AND STRUCTURES

Buildings or structures (not in use as a public place of worship) considered for inclusion on this Register must be listed grade I or II*, (or grade II in London) or be a structural scheduled monument with upstanding masonry remains. Buildings or structures are assessed for inclusion on the basis of condition and, where applicable, occupancy (or use) reflecting the fact that a building which is occupied is generally less vulnerable than one that is not.

Occupancy (or use) is noted as 'vacant', 'part occupied', 'occupied', 'not applicable', or occasionally, 'unknown'. Many structures fall into the 'not applicable' category as they can be ruins, walls, gates, headstones or boundary stones.

Condition is noted as 'very bad', 'poor', 'fair' or 'good'. The condition of buildings or structures on the Register typically ranges from 'very bad' to 'poor', 'fair' and (occasionally) 'good' reflecting the fact that some buildings or structures capable of use are vulnerable to becoming at risk because they are empty, under-used or face redundancy without a new use to secure their future. Assessing vulnerability in the case of buildings in fair condition necessarily involves judgement and discretion. A few buildings on the Register are in good condition, having been repaired or mothballed, but a new use or owner is still to be secured.

Buildings or structures are removed from the Register when they are fully repaired/consolidated, and their future secured through either occupation and use, or through the adoption of appropriate management.

PLACES OF WORSHIP

Places of worship considered for inclusion on this Register must be listed grade I, II* or II and be used as a public place of worship at least six times a year.

Places of worship are assessed on the basis of condition only. If the place of worship is in 'very bad' or 'poor' condition it is added to the Register. Once on the Register, places of worship can move through the condition categories (e.g. from very bad to poor, to fair, even good) as repairs are implemented and the condition improves, until they are fully repaired and can be removed from the Register.

English Heritage has assessed a proportion of the 14,800 listed places of worship. We are working with the respective denominations to assess the remaining places of worship. Those that are identified as at risk will be included on the Register.

ARCHAEOLOGY

Archaeology assessments cover earthworks and buried archaeology. The archaeological sites on this Register have been identified as being at risk because of their condition and vulnerability, the trend in their condition, and their likely future vulnerability. A site's condition is expressed in terms of the scale and severity of adverse effects on it, ranging from those with 'extensive significant problems' to others that have only 'minor localised problems'.

Archaeological entries are removed from the Register once sufficient progress has been made to address identified issues, demonstrating a significant reduction in the level of risk.

PARKS AND GARDENS

The assessment of parks and gardens starts with an appraisal of the condition and vulnerability of each registered landscape. Steps being taken by owners to address problems are also taken into consideration.

Parks and gardens assessed as being at risk are typically affected by development and neglect. They have frequently been altered by development or are faced with major change. The original function of these landscapes has often changed; and divided ownership often results in the loss of the cohesive conservation of the historic designs.

Park and garden entries are removed from the Register once plans are put in place to address issues and positive progress is being made.

BATTLEFIELDS

Battlefields deemed to be at risk of loss of historic significance are included on this Register.

The identified risks and threats come from development pressure – for example, because they lie on urban fringes or are subject to development pressures within the site; arable cultivation, and unregulated metal-detecting. One major impact or a combination of several factors can be enough to raise the risk at a particular site.

Battlefields are removed from the Register when either actual damaging activities are reversed or managed, or threats recede due to effective management planning.

WRECK SITES

English Heritage has audited all designated wreck sites to identify those most at risk based on their current condition, vulnerability and the way they are being managed. Wrecks are vulnerable to both environmental and human impacts. Risks that contribute to the inclusion on the Register range from unauthorised access to erosion and fishing damage.

The monitoring process ensures that the significance of the site is identified and maintained.

In spite of the inherent difficulties in caring for this type of site, careful management must be maintained.

Wrecks are removed from the Register once an appropriate management and monitoring regime is operational.

CONSERVATION AREAS

English Heritage has asked every local authority in England to complete (and update as appropriate) a survey of its conservation areas, highlighting current condition, threats and trends, identifying those that are deteriorating, or are in very bad or poor condition and are not expected to change significantly in the next three years, as being defined as at risk.

The methodology for assessing conservation areas at risk has been refined since the first survey in 2008/2009. The information collated provides a detailed assessment of each conservation area and an overall category for condition, vulnerability and trend is included for each conservation area on this Register. Conservation areas identified as at risk in 2009, but not reassessed since using the revised methodology, are included on the Register but with limited information.

Conservation areas are removed from the Register once plans have been put in place to address the issues that led to the conservation area being at risk, and once positive progress is being made.

Reducing the risks

English Heritage is committed to securing a year-on-year reduction in the number of heritage sites at risk as part of our National Heritage Protection Plan (2011-2015). We have set ourselves a target to remove 25% of entries (1,137) published on the 2010 Register by 2015. Whilst this is a challenge given the number of entries on the Register and the different kinds of risk they face, good progress is being made.

To help address this challenge we have created dedicated Heritage at Risk teams in each local office. We have published our National Heritage at Risk Strategy which is supported by nine local strategies. Key objectives of the strategy are to understand what factors lead to heritage sites becoming at risk, what most influences their removal from the Register, and to achieve this through partnership, stimulating economic regeneration and growth, and maximising the benefit of our expertise and resources.

Whilst each type of heritage asset and individual site will require its own approach and solution, there are some general approaches that are relevant to all at risk assets. Resolving cases requires working in close partnership with owners, local planning authorities and other relevant organisations and partners. The provision of clear advice and understanding are essential.

Maintenance and where appropriate, occupation are key to preventing heritage assets becoming at risk, whilst maintenance of those already at risk will prevent them from decaying further. Without maintenance, the cost of repair and consolidation escalates, the challenge for owners and occupiers increases, and the scope for affordable solutions declines.

English Heritage provides a wide range of published guidance on reducing the risks, including on new uses for heritage assets, finding partners and funding, and on enforcing urgent works and repairs, on our website: www.english-heritage.org.uk or the Historic Environment Local Management (HELM) website: www.helm.org.uk

Historic Environment Records, and local heritage at risk registers maintained by local authorities, are repositories of information on local historic assets. They underpin the work of local authority historic environment services, the inclusion of information about condition can help improve the protection, conservation and management of heritage assets.

BUILDINGS AND STRUCTURES

English Heritage's role in securing the future of buildings and structures that are on the Register is primarily to provide practical advice, guidance and resources to local authorities, owners and developers.

Our local Heritage at Risk teams can help with analysis of the issues, investigating the feasibility of options and brokering solutions. We can advise on sources of grant aid and, where possible and appropriate, the provision of English Heritage's own grants. Our national advisers and specialists in structural engineering, quantity surveying, development economics and law provide support for local teams on particularly difficult cases. We work closely with grant providers, notably the Heritage Lottery Fund and Natural England as these are essential in helping secure the future of buildings or structures on the Register. In very exceptional cases, English Heritage may acquire and repair a particularly important building or structure, where it is clear that this is the only way of securing its long-term future. More information on funding can be found on the HELM website and at www.english-heritage.org.uk/professional/funding

Local authorities have a primary role in protecting the historic environment. The creation of a local heritage at risk register is the first step in tackling neglected buildings. A local register, often compiled with the help of voluntary groups can identify the scale of the problem, promote monitoring and help prioritise resources and action. A range of enforcement powers are available for local authorities to tackle listed buildings at risk but declining resources in local authorities means that these powers are often under-used. In a bid to help, English Heritage now has a legal adviser dedicated to heritage at risk. We can also provide grant aid to underwrite some of the costs involved in serving Urgent Works Notices and Repairs Notices on historic buildings and we hope that this, together with our published guidance (*Stopping the Rot*) will encourage local authorities to take action to save historic buildings.

Building preservation trusts (BPTs) offer a tried and tested way of saving many buildings at risk. In 2012 English Heritage joined forces with the Architectural Heritage Fund to employ four Heritage at Risk Officers to help not-for-profit organisations take forward building at risk projects. We also provide support for an Industrial Heritage Support Officer based at Ironbridge to work with similar groups running industrial sites. These officers aim to provide a supportive network offering guidance on the establishment of new BPTs, access to funding, training, information and links to associated groups. Case studies and our guidance on the transfer of heritage assets to community and voluntary organisations can be found at www.helm.org.uk/guidance-library/pillars-of-the-community-the-transfer-of-local-authority-heritage-assets

PLACES OF WORSHIP

Regular maintenance helps to keep all buildings in good condition but those suffering major problems need repairs to minimise the risks to both the structure and the contents. Keeping drains and gutters clear so that water is taken away from the building efficiently is the most important thing congregations can do as it stops small problems developing into unnecessary crises. The overflowing gutter soon soaks the wall beneath, rots the roof timbers behind it and makes the whole building vulnerable.

In some areas congregations group together to engage reputable contractors at competitive rates to clear gutters and rainwater goods. Such co-operation enables them to get good quality work carried out at reasonable prices by firms that understand historic buildings. The Maintenance Co-operatives project run by the Society for the Protection of Ancient Buildings will further help to connect, inform and empower those people who look after places of worship.

This year the Heritage Lottery Fund has started funding the new Grants for Places of Worship scheme, the main focus of which is fabric repairs but now also includes small changes to enhance community use of the building. English Heritage's architects and surveyors, based in our local Heritage at Risk teams, provide technical advice to the Heritage Lottery Fund on fabric repairs to ensure appropriate conservation standards are met.

The Government's Listed Places of Worship scheme, enabling the reclaiming of VAT on eligible repairs, maintenance and authorised alterations, is available to all listed places of worship, whether they have obtained grants or are funding work themselves. Local and national charities also offer grants.

English Heritage supports congregations wanting to keep their places of worship in use and recognises the need for appropriate new facilities such as kitchens and toilets that are sensitive to the building's special character. *New Work in Historic Places of Worship* (published 2012) helps congregations understand how changes can be achieved.

A network of support officers, employed locally but part-funded by English Heritage, offer advice and encouragement to congregations. Projects to effect repairs, develop necessary new facilities, provide community facilities, and welcome visitors are all transforming buildings that were once thought to be unfit for purpose.

ARCHAEOLOGY

The continuing success in reducing the number of archaeological sites on the Register, even in difficult economic times, demonstrates the value which owners and land managers place upon the monuments in their care, and more and more are addressing their long-term

management on a regular basis. Many scheduled monuments are now on land subject to an agreement under Natural England's Environmental Stewardship schemes, administered on behalf of Defra. Continuing partnership with Defra and Natural England has resulted in much more effective information sharing which we use in analysing, updating and publishing so that resources – whether Environmental Stewardship or English Heritage – can be more closely targeted where they will have the greatest impact. We have agreed a joint target with Natural England to specifically reduce the number of scheduled monuments on the 2010 Register by 25% by 2015. We also continue to work closely with the Heritage Lottery Fund to help identify those important monuments deserving of grant aid for major stabilisation or repair work.

Nationally, damage from arable cultivation is still the greatest risk factor to archaeological entries on the Register. To help address this, the Conservation of Scheduled Monuments in Cultivation (COSMIC) project, a national survey which looks at ways in which further damage can be avoided whilst enabling cultivation to continue wherever possible will begin reporting in the autumn. Some causes of risk are neither so obvious nor dramatic in their effects however. Analysis of entries on the Register shows that unmanaged woodland, tree, scrub and bracken growth is one of the most widespread causes of long-term damage to both urban and rural archaeological sites, even if the effects are not as visible or as immediately destructive as other processes. In most cases simple, low cost but regular maintenance is the key, the delivery of which will always be reliant upon the help and goodwill of landowners.

PARKS AND GARDENS

Although a statutory list, the *Register of Historic Parks and Gardens of Special Historic Interest* in itself brings no additional statutory powers, it instead works through the development control system to provide a valuable tool for the protection of the sites it includes. The Government's *National Planning Policy Framework* (NPPF) stresses the desirability of sustaining and enhancing the significance of all heritage assets and finding viable uses consistent with their conservation. The NPPF states that great weight must be given to the conservation of sites included on the *Register of Historic Parks and Gardens of Special Historic Interest* and that substantial harm or loss of such features can only be justified in exceptional cases.

Most historic parks and gardens are either privately owned or in trust. In addition, local authorities are responsible for nearly all the public parks and cemeteries in our towns and cities. Registered parks and gardens are typically large, complex heritage assets, many in multiple ownership, and it can take many years to identify and implement solutions to reduce the risks to parks and gardens.

To help reduce the risks, English Heritage encourages and works with owners to develop conservation management strategies. Our landscape architects can help tailor conservation management plans and funding packages for individual landscape features or whole sites. We work with partners, such as Natural England and the Heritage Lottery Fund, to help source funding to secure sustainable futures for parks and gardens at risk.

Further information and conservation guidance for parks, gardens and designed landscapes is available at: www.english-heritage.org.uk/professional/advice/advice-by-topic/parks-and-gardens

BATTLEFIELDS

As with registered parks and gardens, the *Register of Historic Battlefields* brings no additional statutory controls to registered battlefields, but the *National Planning Policy Framework* makes it clear that registered battlefields are of equal significance to scheduled monuments, buildings listed grade I and II*, grade I and II* registered parks and gardens and protected wreck sites. Therefore, the positive conservation and management of registered battlefields is a core element of current heritage legislation.

English Heritage continues to work with owners to develop management plans for registered battlefields and, in appropriate cases, contribute towards the cost of management plans. We work to develop positive landscape strategies with owners and partners such as Defra. In some circumstances, we may encourage the conversion from arable to pasture of especially sensitive locations to protect battlefield archaeology from the effects of ploughing and as part of a wider drive to prevent unauthorised or damaging metal-detecting.

English Heritage also continues to encourage greater access to battlefields and improve their amenity value and visitors' appreciation of the impact these historic events had on our development as a nation.

Local authorities can also invite comments from the Battlefields Trust on planning applications affecting the setting of registered sites.

WRECK SITES

At the strategic level, the major sources of risk to designated wreck sites have been identified. In terms of high-priority sites, practical requirements have also been implemented through conservation management plans.

Risks to protected wreck sites can often be reduced through education, provision of marker buoys, or planning policies that take full account of their national importance. However, some sites require significant resources to stabilise their condition or to carry out detailed archaeological assessments of their conservation

requirements. Although English Heritage has statutory power to allocate funds to promote the preservation and maintenance of protected wreck sites, its financial resources can solve only a small proportion of the problems.

In spite of the inherent difficulties with caring for this type of site, careful management must be maintained if we are to avoid the loss of wreck sites. It is therefore close co-operation between the owners of protected wreck sites (where known), authorised divers and all organisations charged with care for the marine and coastal environment, that will make the real difference to their long-term survival.

Practical advice on the management of historic wreck sites, whether at the coast-edge or under water, is available from English Heritage (maritime@english-heritage.org.uk) and from www.helm.org.uk

CONSERVATION AREAS

The risks to conservation areas are difficult to address as they cover large areas of land: they include the spaces between buildings and trees as well as buildings and structures and therefore involve many different owners and methods of management. Looking after conservation areas is a responsibility shared by those of us who own homes and businesses within them as well as those of us whose job it is to manage the spaces between the buildings or make decisions about their future.

The Conservation Areas Survey, completed by local authorities, provides us with an understanding of what is particularly affecting the character and appearance of conservation areas: what is working well or what is putting them at risk. Strong planning policies, guidance and a clear management strategy for individual conservation areas, backed up by effective enforcement, are all critical in managing change in these areas. This is, however, extremely difficult at a time when local authorities across the country are reducing their staff numbers. Armed with the information provided by conservation area surveys, we, local authorities and other partners will have the evidence to direct resources much more accurately towards those conservation areas at greatest risk.

There are opportunities for members of the local community to get involved as well, either individually or through groups. Some local groups have helped to prepare character Appraisals and Management Plans for conservation areas whilst others have carried out their own assessments to identify management issues. Further information on how you can get involved is available at: www.english-heritage.org.uk/caring/get-involved/improving-your-neighbourhood/

Publications and guidance

English Heritage has produced the following publications relating to heritage at risk, including:

Buildings at Risk: a New Strategy (1998)

Caring for Places of Worship 2010 (2010) – a report on the condition of England's listed places of worship and the needs of the congregations

Heritage at Risk 2010 – report (2010)

Heritage at Risk: Conservation Areas (2009)

Heritage at Risk 2013 – national summary leaflet and regional summary leaflets for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, and Yorkshire

Heritage at Risk Register 2013 – detailed listings for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, and Yorkshire can be downloaded from our website or viewed on an interactive database: www.english-heritage.org.uk/risk

Monuments at Risk (2008) – summary of scheduled monuments at risk for: East Midlands, East of England, London, North East, North West, South East, South West, West Midlands, and Yorkshire

The Monuments at Risk initiative 2003-08 (2010)

Protected Wreck Sites at Risk: A Risk Management Handbook (2007)

Saving London: 20 Years of Heritage at Risk in the Capital (2010)

Stopping the Rot: A Guide to Enforcement Action to Save Historic Buildings (2011)

Vacant Historic Buildings: An Owner's Guide to Temporary Uses, Maintenance and Mothballing (2011)

HERITAGE AT RISK ON THE WEB

To find out more about the Heritage at Risk programme visit www.english-heritage.org.uk/risk where you will find an interactive database providing detailed information on all heritage sites at risk nationally.

Details of all nationally designated historic places in England are available in one place on the National Heritage List for England online database: <http://list.english-heritage.org.uk>

For further information about the different classes of designated heritage assets, including listed buildings, scheduled monuments, registered parks and gardens, registered battlefields and protected wreck sites visit the Heritage Protection section of our website www.english-heritage.org.uk/heritageprotection

CONSERVATION POLICIES AND GUIDANCE

The following publications are among the numerous guidance documents available on our website: www.english-heritage.org.uk/publications or www.english-heritage.org.uk/helm

Caring for Historic Graveyard and Cemetery Monuments (2011)

Caring for Our Shipwreck Heritage: Guidelines on the First Aid Treatment and Conservation Management of Finds Recovered from Designated Wreck Sites Resulting from Licensed Investigations (2012)

Caring for Places of Worship (2010) – a practical booklet for everyone involved in caring for England's listed places of worship

Constructive Conservation in Practice (2008)

Constructive Conservation: Sustainable Growth for History Places (2013)

Conservation Principles, Policies and Guidance for the Sustainable Management of the Historic Environment (2008)

Creativity and Care: New Works in English Cathedrals (2009)

The Disposal of Historic Buildings: Guidance Note for Government Departments and Non-Departmental Public Bodies (2010)

Enabling Development and the Conservation of Significant Places (2008)

Farming the Historic Landscape: Caring for Archaeological sites on Arable Land (2004)

Farming the Historic Landscape: Caring for Archaeological Sites in Grassland (2004)

Guidance Notes and Application Forms for Grants to Local Authorities:

- *Grants to Local Authorities to Underwrite Urgent Works Notices* (1998)
- *Acquisition Grants to Local Authorities to Underwrite Repairs Notices* (1998)
- *Grants for Historic Buildings, Monuments and Designed Landscapes* (2004)

Heritage at Risk: Conservation Areas (2009) – guidance for local authorities on conservation area management

Heritage Crime Prevention: A guide for Owners, Tenants and managers of Heritage Assets (2013)

Heritage Crime Risk: Quick Assessment Tool (2013)

Heritage Works: the use of Historic Buildings in Regeneration (2013)

Managing Local Authority Heritage Assets: Some Guiding Principles for Decision Makers (2003)

New Uses for Former Places of Worship (2010)

New Work in Historic Places of Worship (2012)

Options for the Disposal of Redundant Churches and Other Places of Worship (2010)

Paradise Preserved: An Introduction to the Assessment, Evaluation, Conservation and Management of Historic Cemeteries (2002)

Pillars of the Community: the Transfer of Local Heritage Assets (2011)

Scheduled Monument Consent: a Guide for Owners and Occupiers (2009)

Shared Interest: Celebrating Investment in the Historic Environment (2006)

Theft of Metal from Church Buildings (2011)

Understanding Place: Conservation Area Designation, Appraisal and Management (2011)

Valuing Places: Good Practice in Conservation Areas (2011)

Key to the entries

This Register includes the following risk assessment types:

- Buildings and structures
 - grade I and II* listed buildings and structural scheduled monuments
- Places of worship
 - grade I, II* and II listed buildings
- Archaeology
 - scheduled monuments – earthworks and buried archaeology
- Parks and gardens
- Battlefields
- Conservation areas

ORDER

Entries are grouped and ordered alphabetically, first by County[†] (dark grey bands) or Unitary Authority (light grey bands), and then by Local Planning Authority (National Park/Unitary Authority/District or Borough).

Sites that straddle more than one local planning authority are included under the lead authority.

[†]The sub-region Tees Valley is included to group the following unitary authorities: Darlington, Hartlepool, Middlesbrough, Redcar and Cleveland, Stockton-on-Tees; and North York Moors National Park.

Within each planning authority, entries are grouped by risk assessment type in the following order:

- Buildings and structures
- Places of worship
- Archaeology
- Parks and gardens
- Battlefields
- Conservation areas

Within each risk assessment type, entries are ordered alphabetically by parish, locality and street/site name (except for conservation areas which are ordered by site name only).

DESIGNATION

The principal designation is noted for each entry and includes:

- Listed Building (LB) grade I or II*
- Listed Place of Worship grade I, II* or II
- Scheduled Monument (SM)
- Registered Park and Garden (RPG) grade I, II* or II
- Registered Battlefield
- Conservation Area (CA)

Other designations that apply to the designated site, including location within a World Heritage Site (WHS), are also noted.

If an entry is dual designated (both listed and scheduled), 'and' rather than a comma is used (eg 'Scheduled Monument and Listed Building grade I'). If a scheduled monument entry is dual designated with a number of listed buildings, each is separated by a semicolon.

The National Heritage List Entry Number is included for all entries (except conservation areas). If a site is dual designated, all relevant List Entry Numbers are included.

CONDITION

For buildings (including places of worship) at risk, condition is graded as: 'very bad', 'poor', 'fair' and 'good'.

For sites that cover areas (scheduled monuments (archaeology assessments), parks and gardens and battlefields) one overall condition category is recorded. The category may relate only to the part of the site or monument that is at risk and not the whole site:

- extensive significant problems
- generally unsatisfactory with major localised problems
- generally satisfactory but with significant localised problems
- generally satisfactory but with minor localised problems
- optimal
- unknown (is noted for a number of scheduled monuments that are below-ground and where their condition cannot be established).

For conservation areas, condition is categorised as: 'very bad', 'poor', 'fair' and 'optimal'.

If a site has suffered from heritage crime it is noted in the summary. Heritage crime is defined as any offence which harms the heritage asset or its setting and includes arson, graffiti, lead theft and vandalism.

OCCUPANCY / USE

For buildings (excluding places of worship) that can be occupied or have a use, the main vulnerability is vacancy, or under-use. Occupancy (or use) is noted as follows:

- vacant
- part occupied
- occupied
- unknown
- not applicable

VULNERABILITY

Principal vulnerability is noted for archaeology assessments and may relate only to the part of the site that is at risk, and include:

- animal burrowing
- arable ploughing
- coastal erosion
- collapse
- deterioration – in need of management
- scrub/tree growth
- visitor erosion.

For parks and gardens, battlefields and conservation areas, vulnerability is noted as high, medium or low.

PRIORITY CATEGORY

Priority for action is assessed on a scale of A to F, where 'A' is the highest priority for a site which is deteriorating rapidly with no solution to secure its future, and 'F' is the lowest priority.

For **buildings and structures and places of worship** the following priority categories are used as an indication of trend and as a means of prioritising action:

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

2012 priority categories are given in brackets, otherwise 'New entry' is noted.

For **battlefields** the following priority categories are used as a means of prioritising action:

- A** No action/strategy identified or agreed (where trend is declining or unknown)
- B** Action/strategy agreed but not yet implemented (where trend is declining or unknown)
- C** No action/strategy identified or agreed (where trend is stable or improving)

- D** Action/strategy agreed but not yet implemented (where trend is stable or improving)
- E** Monitoring as appropriate (any trend)
- F** Action implemented/strategy underway/ scheme in progress (any trend)

TREND

Trend for archaeology entries, parks and gardens and battlefields may relate only to the part of the site that is at risk and is categorised as:

- declining
- stable
- improving
- unknown

For conservation areas trend is categorised as:

- deteriorating
- deteriorating significantly
- no significant change
- improving
- improving significantly
- unknown

OWNERSHIP

A principal ownership category is given for each entry, and if sites are in divided ownership, a 'multiple' ownership category is noted.

CONTACT

This is the local Heritage at Risk Principal who acts as a first point of contact for the case, and to whom enquiries should be addressed.

For conservation areas, the contact is the conservation/planning officer at the relevant local planning authority (indicated by 'LPA').

We are not in any sense agents for the owners of the sites included, but we will endeavour to put people in touch with them where appropriate.

COUNTY DURHAM (UA)

© English Heritage

SITE NAME:	West Mural Tower at Auckland Castle, Auckland Castle Park, Bishop Auckland
DESIGNATION:	Listed Building grade I, RPG grade II*, CA
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	B (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1196445

Two-storey viewing tower in the grounds of Auckland Castle. C13, with later alterations. The building requires urgent consolidation works as there is immediate risk of loss of historic fabric. A statement of significance was completed in 2011. Funding has been identified to allow a repair scheme to be drawn up.

Contact: Kate Wilson 0191 269 1221

© English Heritage

SITE NAME:	Brancepeth Castle, Brancepeth
DESIGNATION:	Listed Building grade I, RPG grade II, CA
CONDITION:	Poor
OCCUPANCY:	Part occupied/part in use
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1159012

Brancepeth Castle is a medieval fortress that was greatly enlarged in the C19 by architects John Paterson and, later, Anthony Salvin. It was occupied by the army during World War II and then by glassware makers JA Joblings. Parts of the building are currently lived in and some areas are used as workshops and offices. There is a need for some urgent repairs as well as longer term maintenance.

© English Heritage

SITE NAME:	Hedleyhill Colliery coke works, 500 metres south west of Hazlet House, Brandon and Byshttles / Hedleyhope
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1018230

C18-C19 lines of brick-built coke ovens. Many bricks have been dislodged by livestock sheltering within them. Livestock have also eroded the grassy banks between each oven and established tree growth occurs along the entire structure.

Contact: Kate Wilson 0191 269 1221

© English Heritage

SITE NAME:	Church, 50 metres north east of Croxdale Hall, Croxdale Hall, Croxdale and Hett
DESIGNATION:	Scheduled Monument and Listed Buildings - I grade I; I grade II, RPG grade II*, CA
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1019820 and 1120740; 1120741

Medieval former church with nave dating back to late C11 and chancel to late C12. Altered in later centuries but Norman south doorway contains the original door with iron hinges. On the Croxdale Estate and rarely opened up. There is severe damp in the building, both rising damp in the floors and walls and penetrating damp over the chancel arch.

Contact: Kate Wilson 0191 269 1221

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE
Last year's priority category is shown in brackets, otherwise 'New entry' is noted.

SITE NAME:	Durham Prison Officers' Club, ("The Tithe Barn"), Hallgarth Street, Durham
DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Fair
OCCUPANCY:	Occupied/in use
PRIORITY CATEGORY:	D (D)
OWNER TYPE:	Government or agency
LIST ENTRY NUMBER:	1120616

C15 granary building, erroneously known as "The Tithe Barn", forming part of an important group of medieval farm buildings. The building lies outside the secure perimeter of the adjoining prison and is used as part of the Prison Officers' Club. The roof, stonework and close-studded upper floor require attention. Repointing of the barn has begun but further works are required, particularly to the granary.

SITE NAME:	Prebends' Bridge, Durham and Framwellgate
DESIGNATION:	Scheduled Monument and Listed Building grade I, CA, WHS
CONDITION:	Fair
OCCUPANCY:	N/A
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1002337 and 1121354

Bridge over the River Wear designed in 1772-8 by George Nicholson for the Dean and Chapter of Durham Cathedral. The masonry of the arches has deteriorated significantly in recent years; however, a programme of remedial works, part-funded by English Heritage, was completed on the southern arch during 2011/12. Works have yet to be completed on the northern arch.

SITE NAME:	Ushaw Home Farm, main block and wall attached, Esh
DESIGNATION:	Listed Building grade II*
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (New entry)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1185963

Part of a planned farm, constructed 1851-2 to designs by Joseph Hansom. Of three storeys, the main range is built into the bankside so that the lower two floors have ground level access. Two attached side wings and a projecting central bay create an E-shaped plan. Many original internal features survive. There is general deterioration to most external elements, including missing or displaced verge stones to some gable ends, defective rainwater goods and cracking to masonry walls. Many areas of slipped or displaced roof slates are allowing the ingress of rainwater.

SITE NAME:	Bounds Wall, Ushaw College, Ushaw, Esh
DESIGNATION:	Listed Building grade II*
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	F (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1185962

Playing field boundary wall, incorporating racquet and handball courts. Designed c1850 by Joseph Hansom for the former Catholic seminary at Ushaw College. A section of one court is progressively collapsing and the remainder is at risk due to the difficulty of maintenance and repair. English Heritage offered a grant towards the full repair programme, which commenced in June 2013.

SITE NAME:	Chapel of St Michael at College of St Cuthbert, Ushaw, Esh
DESIGNATION:	Listed Building grade I
CONDITION:	Good
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	F (E)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1299435

Memorial mortuary chapel, of 1858/9, designed by EW Pugin. The chapel is part of the Ushaw College complex; a former seminary for the training of Catholic priests. English Heritage offered a grant towards urgent repair works which were completed in 2011, the same year in which the seminary closed. An options study is underway to find a sustainable long-term use for the site and its constituent buildings.

SITE NAME:	Dovecote, 45 metres south of Gainford Hall, Gainford
DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1121116

Dovecote, C17, within the grounds of Gainford Hall. Stone repairs, roof renewal and repointing required.

Contact: Kate Wilson 0191 269 1221

© English Heritage

SITE NAME:	Gainford Hall, Low Road, Gainford
DESIGNATION:	Listed Building grade I, CA
CONDITION:	Poor
OCCUPANCY:	Occupied/in use
PRIORITY CATEGORY:	D (D)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1323010

Manor house circa 1600-1603. Occupied but part of upper floor never completed. The building has a defective roof valley and localised structural deformation of walling.

Contact: Kate Wilson 0191 269 1221

© English Heritage

SITE NAME:	Hamsterley Hall, Hamsterley, Consett
DESIGNATION:	Listed Building grade II*
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (B)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1067550

Mid C18 Gothic country house, possibly with older core. The house also has C19 and C20 additions. The building was saved from dereliction by the previous owners, who also part-restored the front range. Options are now being explored to secure the site's immediate and long-term future following refusal of planning permission for an enabling development scheme in 2012.

Contact: Kate Wilson 0191 269 1221

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
B Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
C Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
E Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE
 Last year's priority category is shown in brackets, otherwise 'New entry' is noted.

SITE NAME:	Iron gates and railings, Lambton Castle, Lambton Park, Little Lumley
DESIGNATION:	Listed Building grade II*, RPG grade II
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1311161

Posts, gates and railings on the north west drive to Lambton Castle forming a large and elaborate wrought iron gateway. Certain details are missing and the gateway is slowly decaying. In 2010, English Heritage grant-aided a condition survey with costed priorities for repair works. The project has stalled, although options are now being explored to help secure the long-term future of the various historic buildings and structures in the estate.

OWNER TYPE:	Private
LIST ENTRY NUMBER:	1002341

Mid-medieval stone bridge, dating from 1335 but upper part rebuilt at unknown later date. Tree growth and water ingress has started to push out masonry, as evidenced by pronounced gaps running throughout the structure. Drainage channels empty adjacent to the bridge abutments and this compounds the ongoing erosion.

Contact: Kate Wilson 0191 269 1221

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE
Last year's priority category is shown in brackets, otherwise 'New entry' is noted.

SITE NAME:	Westgate Primitive Methodist Chapel, Westgate, Stanhope
DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Fair
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	E (E)
OWNER TYPE:	Charity (heritage)
LIST ENTRY NUMBER:	1232510

Former Primitive Methodist chapel, with attached schoolroom, constructed in 1871 to the design of George Race Junior & Atkinson and incorporating parts of an earlier C19 chapel. Roof leaks have caused localised internal damage. Investigative works and urgent repairs, part-funded by English Heritage, commenced in 2011 and are due to be completed in 2013. An options study is being prepared.

SITE NAME:	Coke ovens at Inkerman Farm, Tow Law / Cornsay
DESIGNATION:	Scheduled Monument
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1018228

Post-medieval beehive coke ovens. The management of the site was reviewed in 1998 with the involvement of Tow Law Town Council, which had a local heritage initiative. English Heritage grant-aided the consolidation works, excavation and recording of finds. The initial repair programme is complete and half of the site is now open to the public. However, consolidation of the rest of the site is still required.

SITE NAME:	Harperley Working Camp, World War II Prisoner of War camp at Craigside, Wolsingham
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	F (B)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1020730

Very rare surviving example of a World War II Prisoner of War camp. Used by both German and Italian prisoners of war. 85% of original buildings in roofed condition. Wall paintings and internal fittings have survived too. Following a series of investigative surveys, a programme of conservation works, funded by English Heritage, commenced in 2011. A second phase of work to the canteen and theatre is due to be completed in 2013.

SITE NAME:	Church of St Anne, Market Place, Bishop Auckland
DESIGNATION:	Listed Place of Worship grade II, CA
CONDITION:	Poor
PRIORITY CATEGORY:	D (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1292201

1846-8 by William Thompson, on the site of a medieval chapel. Tall aisled nave with clerestory windows, gabled south porch and distinctive west belfry. Chancel with organ chamber and vestry. The north roof slopes have undergone numerous repairs but have now reached the end of their serviceable lives. There is rainwater ingress and some areas of the external stonework require attention. A Repair Grant for Places of Worship has been offered.

SITE NAME:	Church of St Brandon, North Drive, Brancepeth Park, Brancepeth
DESIGNATION:	Listed Place of Worship grade I, RPG grade II, CA
CONDITION:	Poor
PRIORITY CATEGORY:	C (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1158956

Medieval church, substantially rebuilt following a fire in 1998 and comprising a west tower, aisled nave, transepts and chancel. North porch added c1630. C19 south porch. There are some deep pockets of external stone erosion, particularly towards the east end of the church, and the stonework of the south porch is in a poor and deteriorating condition. The building has been subject to heritage crime.

SITE NAME:	Church of St Cuthbert and presbytery attached, Old Elvet, Durham
DESIGNATION:	Listed Place of Worship grade II, CA
CONDITION:	Poor
PRIORITY CATEGORY:	D (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1160512

Roman Catholic church and presbytery built 1826-27 in Church Perpendicular style. West tower and Lady Chapel were added in 1869 to the designs of Bonomi. Signs of cracking in the tower masonry and pockets of erosion; the latter probably due to an earlier repair using cementitious repointing mortar. A Repair Grant for Places of Worship was offered in March 2012 towards a project development and repair programme.

SITE NAME:	Church of St John the Baptist, St John's Chapel, Stanhope
DESIGNATION:	Listed Place of Worship grade II, CA
CONDITION:	Poor
PRIORITY CATEGORY:	F (D)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1232171

Church built in 1752 on the site of a medieval chapel and extended in 1881-83 by Ewan Christian. Contains an elegant Georgian interior but is suffering from water ingress due to blocked gutters and fall pipes. The roof coverings also need replacing. Structural movement in the tower will be arrested when surface water drainage is repaired. A Repair Grant for Places of Worship was offered in 2011 and, following investigative works, a repair programme commenced in 2012.

OWNER TYPE:	Private
LIST ENTRY NUMBER:	1001271

A late C18 walled garden accompanying a country house and set in parkland of early to mid C18 origin. The walled garden and lakes are by the designer Lewis Kennedy. Croxdale Hall has been the seat of the Salvin family since the beginning of the C15. Maintenance of the gardens has fallen back in recent years and the water bodies are in a poor and deteriorating state. The notable "cranked" walls flanking the Orangery are in an advanced state of decay.

DESIGNATION:	Scheduled Monument and Listed Building grade II
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	D (D)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1015848 and 1154939

A series of standing and buried remains of one of four mine shafts in the East Allen valley. The shaft, 70 metres deep, was dug in 1855. The tower base enclosing the shaft, the engine bed and wheel pit (grade II listed) is being damaged by tree roots. Parts of the wheel pit collapsed in 2011. A broad repair solution has been agreed and it is hoped that a programme of works will be undertaken during 2014.

SITE NAME:	Bondgate Tower, Bondgate Within, Alnwick
DESIGNATION:	Scheduled Monument and Listed Building grade I, CA
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1006597 and 1041513

The east gate of the former town wall, built circa 1450 by the second Earl of Northumberland. Consists of a recessed central portal between two projecting semi-octagonal towers. The main defects relate to damage from high-sided vehicles passing through the central portal. Further impact of a similar nature could cause a serious collapse. Discussions are underway to manage this risk.

SITE NAME:	General Lambert's House, 31 and 33, Narrowgate, Alnwick
DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1041425

Early C19 townhouse in plain ashlar, with three storeys and a basement. Most of the original interior detailing is still present. The building is vacant and deteriorating due to a lack of maintenance. A condition survey has been prepared and discussions are underway to find a viable solution for the site.

SITE NAME:	Eastern winding house and shaft head building, Woodhorn Colliery, Ashington
DESIGNATION:	Listed Building grade II*
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	F (C)
OWNER TYPE:	Local authority
LIST ENTRY NUMBER:	1153123

Winding house and shaft-head gear attached to the former Woodhorn Colliery. Built circa 1894, with later alterations. Repairs were carried out to the building as part of a major improvement scheme for the entire site that was completed in 2006. Significant corrosion has reappeared in the steelwork and concrete meaning that the structure requires further remedial work. A repair scheme is due to be completed in 2013.

SITE NAME:	Hydraulic silo, 70 metres east of Cragend Farmhouse, Cartington
DESIGNATION:	Listed Building grade II*
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	D (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1153196

Experimental hydraulic silo, circa 1895, by Lord Armstrong. Linear plan comprising a rectangular silage bay on each side of a taller cross-gabled centre. Interior contains a hydraulic engine and turbine. The building is in a poor state of repair. Planning consent was granted in 2011 for the conversion of neighbouring farm buildings, and it is hoped that this scheme will help secure the future of the silo. Some repairs have been completed to make the building wind- and water-tight.

Contact: Kate Wilson 0191 269 1221

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
B Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
C Slow decay; no solution agreed.

- D** Slow decay; solution agreed but not yet implemented.
E Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).

- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE
 Last year's priority category is shown in brackets, otherwise 'New entry' is noted.

SITE NAME:	Twizel medieval tower house and folly, Twizel, Duddo
DESIGNATION:	Scheduled Monument and Listed Building grade II*, RPG grade II*
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1018445 and 1042168

The present building incorporates the remains of a medieval tower house that was later developed into an C18 folly by Sir Francis Blake. Originally five storeys high, it now stands to three storeys. The site is unmanaged and shows signs of structural instability, including substantial vertical cracks around many of the arches and window openings. It is hoped that this structure along with the associated archaeological features will form part of a wider project that looks at the registered park and garden of Tillmouth Park (grade II*) which is also on the Heritage at Risk Register.

LIST ENTRY NUMBER:	1008991

C16/C17 bastle standing on the summit of Shilla Hill. English Heritage offered a grant in 2006 towards rectified photography work plus production of a specification and schedule for repair works. A further grant was offered in 2008 towards consolidation works and vegetation clearance. The repair programme is now complete but further monitoring is required to ensure the building is sound.

SITE NAME:	Bastle and associated buildings northwest of Comb, Comb, Tarsset
DESIGNATION:	Scheduled Monument and Listed Building grade II
CONDITION:	Good
OCCUPANCY:	N/A
PRIORITY CATEGORY:	F (F)
OWNER TYPE:	Government or agency
LIST ENTRY NUMBER:	1008992 and 1370502

Ruins of C16 or early C17 bastle surviving to first floor level. Vault has mostly collapsed but a number of interesting features survive. English Heritage offered a grant towards rectified photography work plus production of a specification for repairs. A further grant offer was made in 2008 towards consolidation works; these are now complete but further monitoring is required to ensure the building is sound.

SITE NAME:	Cocklaw Tower, East Cocklaw, Wall
DESIGNATION:	Scheduled Monument and Listed Building grade I
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	D (D)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1006602 and 1156641

C14 tower containing wall paintings of probable C16 date. The tower is roofless, with self-seeded shrubs in the wall tops and over the first floor barrel-vaulting. The wall tops are perilous and there has been a partial collapse of the vaulting. The wall paintings show recent loss and are highly vulnerable. English Heritage has offered a grant towards specialist engineering advice on the emergency propping of the vault.

SITE NAME:	Carrshield lead mines and ore works, Carrshield, West Allen
DESIGNATION:	Scheduled Monument and Listed Buildings - 5 grade II
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1015849 and 1155612; 1303252; 1042930; 1042931; 1042932

The remains of two lead mines and an ore works on the base and lower slopes of the West Allen valley at Carrshield. The site was used over three centuries, leaving a complex assortment of remains. The grade II lodging shop is the largest of its kind in the North Pennines but has severe structural damage and parts of the stone wall revetment have collapsed into the river.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Mohopehead lead mine and ore works, Mohope, West Allen
DESIGNATION:	Scheduled Monument and Listed Building grade II
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	B (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1016349 and 1156464

Scheduled lead mine of C18/C19. The mineshop is in a very dangerous condition, with the roof and rear wall collapsing recently. The bouse team is slowly deteriorating and trees are encroaching. Site included within the management plan and lead mining strategy for the North Pennines Area of Outstanding Natural Beauty. A phase of works is due to be completed in 2013.

Contact: Kate Wilson 0191 269 1221

PRIORITY CATEGORIES

- A** Immediate risk of further rapid deterioration or loss of fabric; no solution agreed.
- B** Immediate risk of further rapid deterioration or loss of fabric; solution agreed but not yet implemented.
- C** Slow decay; no solution agreed.
- D** Slow decay; solution agreed but not yet implemented.
- E** Under repair or in fair to good repair, but no user identified; or under threat of vacancy with no obvious new user (applicable only to buildings capable of beneficial use).
- F** Repair scheme in progress and (where applicable) end use or user identified; functionally redundant buildings with new use agreed but not yet implemented.

NOTE
Last year's priority category is shown in brackets, otherwise 'New entry' is noted.

SITE NAME:	Church of St Cuthbert, Church Street, Haydon
DESIGNATION:	Listed Place of Worship grade II*, CA
CONDITION:	Poor
PRIORITY CATEGORY:	C (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1154539

The church was erected in 1796 by the Greenwich Hospital Trustees, to whom the Derwentwater estates passed in the C18. It has an elegant west tower, narrower than the nave, which is topped by a pagoda-like roof. A north transept was added in 1869 to accommodate children from the Shaftoe Trust School, and the chancel was enlarged, and other alterations made, in 1898. There is structural movement in the transept and rainwater ingress.

SITE NAME:	Haydon Old Church, Old Haydon, Haydon
DESIGNATION:	Listed Place of Worship grade I
CONDITION:	Very bad
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1042512

Former parish church with C12 chancel and C14 south chapel. Some Roman material has been used amongst the squared stonework and the font is a re-cut Roman altar. The roof has serious problems, with a heavy build-up of moss holding water and exacerbating the problems caused by water penetration through holes in the roof.

SITE NAME:	Christ Church, Hepple
DESIGNATION:	Listed Place of Worship grade II
CONDITION:	Poor
PRIORITY CATEGORY:	D (D)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1041243

Parish church built in 1897, in Late Perpendicular style, to the designs of C Hodgson Fowler. Font has a C12 bowl on a C19 stem and there are medieval grave markers within the nave. Slate roof coverings have almost reached the end of their useful life, particularly on the north slope, causing leaks. A Repair Grant for Places of Worship was approved in May 2013 towards a repair programme.

SITE NAME:	Seaton Delaval	Remains of early C18 park and garden, partially restored in the 1950s-60s. House designed by Sir John Vanbrugh in 1719. The approach avenue is deteriorating, with natural regeneration concealing some key landscape features including the Mausoleum. Hall and landscape acquired by the National Trust in December 2009, opened to visitors in May 2010. Parkland Plan, funded by Natural England, will be used to set priorities for conservation and repair works to the landscape and structures within it.

SITE NAME:	Hadrian's Wall from Cockmount Hill to Walltown, Greenhead, Northumberland (UA)
DESIGNATION:	Scheduled Monument and Listed Building grade I, WHS
CONDITION:	Poor
OCCUPANCY:	N/A
PRIORITY CATEGORY:	D (C)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1017535 and 1155916

Sections of unconsolidated Hadrian's Wall in Wall Miles 43, 44 and 45. Many of the original issues have been addressed through a Higher Level Stewardship (HLS) scheme involving the owner, Natural England and English Heritage. Further sections of the Wall are under different ownerships and efforts will concentrate on addressing the remaining issues through a further Higher Level Stewardship agreement. It is hoped that a scheme of works will be completed in 2013.

SITE NAME:	Bastle at Horneystead, 400 metres south west of The Ash, Wark, Northumberland (UA)
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	B (B)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1009674

A defensive farmhouse of the type found only in the northern border counties of England. The walls stand up to 4.5 metres high but the first floor has collapsed on a barrel vault. The main cause for concern was a large tree growing out of the upper courses of the north wall, whose roots were displacing and dislodging original fabric. The tree was removed during 2009 but further consolidation works are required.

SITE NAME:	Church of All Saints, Sockburn Lane, Sockburn
DESIGNATION:	Scheduled Monument and Listed Building grade I
CONDITION:	Fair
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	E (E)
OWNER TYPE:	Religious organisation

LIST ENTRY NUMBER: 1002340 and 1185947

An important site containing the remains of the church (C13-C15) and a major collection of pre-Conquest stone effigies housed in the nearby Conyers Chapel. The church was abandoned in 1838 and allowed to fall into ruin. Urgent repair works were completed in 2006 with English Heritage grant aid. A second phase of consolidation works was undertaken in 2010, again grant aided by English Heritage.

Contact: Kate Wilson 0191 269 1221

PRIORITY CATEGORIES

SITE NAME:	Sockburn Hall, Sockburn Lane, Sockburn
DESIGNATION:	Listed Building grade II*
CONDITION:	Very bad
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	A (A)
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1116156

Country house of 1834 which has deteriorated due to lack of maintenance over many years. Water ingress has led to the localised collapse of floors and ceilings, and there is general decay throughout. The Sockburn Hall Project was established in 2007 and this has been effective in mobilising volunteer activity to improve the site. English Heritage provided funding in 2009 to make the property watertight and a detailed condition survey has been prepared. Further project development work is in progress, including a viability study.

SITE NAME:	Church of St Hilda, Park Gate, Darlington
DESIGNATION:	Listed Place of Worship grade II
CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1322955

Built (1887-88) in red brick in the Early English style by eminent C19 church architect JL Pearson. The stained glass and interior fittings were removed soon after closure in 1986. The church then suffered a fire before being acquired and re-used for worship by the Life and Light Mission. Roof coverings are reaching the end of their life and low level brickwork is in need of repair.

SITE NAME:	Church of Holy Trinity, Woodland Road, Darlington
DESIGNATION:	Listed Place of Worship grade II*, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1121226

Built in 1836-38 by Anthony Salvin, with a chancel and vestry by J Ross added in 1867. The church has historical importance as an early example of the Early English Gothic Revival and its building reflects Darlington's rapid growth at that time. Defective parapet gutters have led to outbreaks of dry rot and repairs are required urgently. The building has also been the subject of heritage crime.

HARTLEPOOL (UA)

© English Heritage

SITE NAME:	Church of St Hilda, High Street, Hartlepool Headland
DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1263355

Built around 1200 on the site of a C7 monastery, incorporating the remains of an early C12 church. Many Saxon and medieval architectural fragments throughout the church, which has undergone several re-designs and was fully restored between 1925 and 1932. The church is on an exposed site near the sea and the parapets (and other masonry) are open-jointed. In addition to having a spalling roof, the tower has structural issues that are currently under investigation. The building has also been the subject of heritage crime.

Contact: Kate Wilson 0191 269 1221

SITE NAME:	Church of the Holy Trinity, Church Street, Seaton Carew
DESIGNATION:	Listed Place of Worship grade II, CA
CONDITION:	Very bad
PRIORITY CATEGORY:	D (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1250751

Originally built as a chapel within the parish of Stranton, Holy Trinity was consecrated in 1831. Seaton Carew became a parish in its own right in 1841 and the church was extended, with a chancel and gallery built. Further alterations continued to be made to the building but some relatively recent repairs, using hard cement pointing, have accelerated the erosion of the stonework. Significant repairs are now required to the roof structure, masonry and rainwater goods. A Repair Grant for Places of Worship was offered in March 2012 towards a project development and repair programme.

MIDDLESBROUGH (UA)

SITE NAME:	Acklam Hall, Hall Drive, Acklam
DESIGNATION:	Listed Building grade I
CONDITION:	Poor
OCCUPANCY:	Vacant/not in use
PRIORITY CATEGORY:	D (C)
OWNER TYPE:	Educational (state sector)
LIST ENTRY NUMBER:	1136868

Late C17 manor house with C19 and C20 additions. Situated in the remnants of a historic designed landscape. The building was last occupied by Middlesbrough College but became vacant in 2008. There is progressive deterioration to the fabric of the building and it is vulnerable to anti-social behaviour. A mixed-use scheme to secure the site's future was granted planning consent in 2012, but this has yet to commence.

REDCAR AND CLEVELAND (UA)

SITE NAME:	Bastion and ha-ha wall, north of Kirkleatham Hall Stables, Kirkleatham, Redcar
DESIGNATION:	Listed Building grade II*, CA
CONDITION:	Very bad
OCCUPANCY:	N/A
PRIORITY CATEGORY:	B (B)
OWNER TYPE:	Local authority
LIST ENTRY NUMBER:	1329608

Early-mid C18 bastion and adjoining ha-ha. The bastion is badly vandalised and robbed of much stonework. A conservation plan for structures on the Kirkleatham Hall estate was completed in 2008. Some consolidation work, part-funded by English Heritage, was carried out on the bastion during 2011/12 but further repairs are required and the ha-ha remains in a very poor condition.

LIST ENTRY NUMBER:	1159896

Mausoleum, in memory of Marwood William Turner, attached to Church of St Cuthbert. 1739-40 by James Gibbs. The building has suffered from water penetration and rising damp, causing damage to the internal plasterwork and internal monuments. A grant was offered in 2011 towards a package of urgent repairs. These are due to be completed in 2013/14.

LIST ENTRY NUMBER:	1387499

Arts and Crafts style memorial to the dead of the First World War 1914-18 with bronze sculpture by Sir William Reynolds-Stephens. Unveiled on 14 November 1920. The cross has open joints and cracking in its west arm. The surrounding paved area and retaining walls have suffered from subsidence and corrosion is affecting the heavily patinated bronze sculpture.

PRIORITY CATEGORY:	F (C)
OWNER TYPE:	Charity (heritage)
LIST ENTRY NUMBER:	1005898 and 1248994

Built by the North Eastern Railway Company and opened in 1893. Closed in the 1970s after being the last working staiths on the River Tyne. Fire damage in 2003 resulted in 8% of the monument being lost and there was a further fire in July 2010. A conservation plan, condition survey and feasibility study have been produced to identify a future for the structure. A scheme of repair is due to commence in 2013 with funding from the Heritage Lottery Fund and English Heritage.

SITE NAME:	Church of All Saints, Pilgrim Street
DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Poor
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1106329

Built between 1786-96 by David Stephenson to replace a medieval church on the same site. Classical style, with baroque tower. All Saints was closed by the Church of England in 1961 and the building was subsequently occupied as an urban studies centre and concert hall. It is currently used for worship by the Church of St Willibrord. The building has been a victim of heritage crime. Recent works have been undertaken to stem the ingress of rainwater, however further repairs are required.

SITE NAME:	Church of St James, Benwell Lane, Benwell
DESIGNATION:	Listed Place of Worship grade II
CONDITION:	Poor
PRIORITY CATEGORY:	F (D)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1024959

Built as a chapel of ease in 1832, St James became a parish church in 1843. Re-designed in 1864 in a mostly Norman style by John Dobson. Spire, choir vestry and porch were added by Hicks and Charlewood in 1895. Roof coverings are in a bad condition, as are valley gutters which run the full length of the building. The church has also suffered from heritage crime in the past. A Repair Grant for Places of Worship was offered in March 2011 and, following investigative works, a repair programme commenced in 2013.

DESIGNATION:	Listed Place of Worship grade II
CONDITION:	Very bad
PRIORITY CATEGORY:	B (A)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1024846

Parish church of 1856-9 designed by John Dobson. Formally closed in 2006, the church lay vacant, and subject to heritage crime, until taken over by the Life Transformation Ministry in 2009. The Ministry plans to tackle the major structural issues from which the building suffers but, due to the parlous nature of the building, services are currently being held in an adjoining building. A grant towards investigative works was awarded in March 2012, with the aim of devising a phased repair programme. A further grant was offered in March 2013 for urgent repairs to the roof and rainwater goods.

NEWCASTLE UPON TYNE / GATESHEAD

© Battlefields Trust

SITE NAME:	Battle of Newburn Ford
DESIGNATION:	Registered Battlefield, 5 LBs, 2 CAs
CONDITION:	Generally satisfactory but with significant localised problems
VULNERABILITY:	High
TREND:	Stable
PRIORITY CATEGORY:	C
OWNER TYPE:	Private
LIST ENTRY NUMBER:	1000025

The Battle of Newburn Ford (1640) was the only battle of the Second Bishops War. The Scottish Army took Newcastle by defeating the English at this river crossing rather than attacking the northern defences of the city. The effect of the Scottish campaign was to force Charles I to raise an army against them and after the loss of Newcastle, to pay them off. This expense spelt the end for Charles' period of rule without Parliament and proved to be a critical step towards the English Civil War. The battlefield has been subject to piecemeal, peripheral development.

SITE NAME:	'F' Pit Museum - colliery engine house, Albany Way (East side)
DESIGNATION:	Scheduled Monument and Listed Building grade II
CONDITION:	Poor
OCCUPANCY:	Part occupied/part in use
PRIORITY CATEGORY:	C (C)
OWNER TYPE:	Local authority
LIST ENTRY NUMBER:	1018224 and 1025422

"F" Pit was sunk in 1777 but the engine house wasn't built until 1926. The pit closed in 1968 and the site was cleared, apart from the engine house. Representing a fine example of the winding technology used in the North East coalfield, the building re-opened as a museum in 1976. However, operational costs, coupled with low visitor figures, caused the museum to close, leaving the future of the building uncertain.

SITE NAME:	Church of St Andrew, Park Avenue, Sunderland
DESIGNATION:	Listed Place of Worship grade I, CA
CONDITION:	Poor
PRIORITY CATEGORY:	D (New entry)
OWNER TYPE:	Religious organisation
LIST ENTRY NUMBER:	1207113

Church by Edward S Prior and his site architect A Randall Wells, 1906-7. The church has a big landmark tower at the east end, above the chancel, and a wide and broad nave giving the impression inside of the upturned keel of a boat. Highly innovative and the whole recognised as a rare artistic achievement. Window glazing is set in distinctive triangular-headed light and is in a very poor condition. A Repair Grant for Places of Worship was offered in 2012 for a further phase of glazing repairs.

SITE NAME:	Bowes Railway, track, Wagon Shop, Hauler Houses and associated sheds, structures and incline, Bowes Railway, Washington / Lamesley
DESIGNATION:	Scheduled Monument
CONDITION:	Very bad
OCCUPANCY:	Part occupied/part in use
PRIORITY CATEGORY:	B (B)
OWNER TYPE:	Charity (heritage)
LIST ENTRY NUMBER:	1003723

Sheds, track, blacksmiths, engineering and fitting workshops, hauler houses and incline track bed that form part of Bowes Railway. Designed by George Stephenson. Opened in 1826 as a rope-hauled colliery railway. This extensive site is vulnerable to vandalism. Wardley Locomotive shed suffered storm damage in 2005 and emergency repairs were completed in 2006. Blackham's Hill Hauler House was repaired, part-funded by EH grant aid, in 2009/10. At Springwell, Engineering and Blacksmiths workshops were repaired in 2003/04. Urgent repairs to the Wagon Shop, part-funded by EH grant aid, began in 2013.
